

~~TOP SECRET~~

MAR 17 1956

Ambassador Amos J. Peaslee
Deputy Special Assistant to the President
The White House

Dear Ambassador Peaslee:

In response to Governor Stassen's request of 23 January, I attach the comments we have developed on the draft Comprehensive Inspection Plan.

The plan includes many technical features requiring elaborate study and these fall largely outside our competence. We have, therefore, confined our comments to general issues and considerations affecting the role of intelligence in relation to the plan.

If the USSR should accept our inspection arrangement as envisaged in your draft, the intelligence community would be presented with a new opportunity and at the same time great responsibilities. It is, therefore, important that there be the closest coordination between the intelligence agencies and those responsible for developing the detailed plans for the Data Analysis Center. Moreover, it will be highly desirable to supplement the overt agreed inspection with appropriate collection activities by the intelligence agencies for purposes of verifying and supplementing the data collected. We stand ready at the appropriate time to work out the necessary detailed arrangements to accomplish the foregoing.

Sincerely yours,

Allen W. Dulles
Director
